

YASH ARYA

Frontend Developer (React.js) | SDE Intern Aspirant

Meerut, Uttar Pradesh | 7455883578 | yasharya481@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Final-year B.Tech (CSE) student focused on frontend development with React.js — building responsive, component-driven UIs and integrating them with REST APIs. Experienced in building complete applications end-to-end with Node.js, Express and MongoDB, including an AI-powered project that integrates the Google Gemini API and GitHub API. Seeking a Frontend / SDE Intern role to build clean, user-facing product interfaces.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, Vite

APIs & AI Integration: REST API integration, GitHub API, Google Gemini API (LLM integration), Postman

Backend & Database: Node.js, Express.js, MongoDB (built full app backends for personal projects)

Developer Tools: Git, GitHub, VS Code, npm, Vercel / Render (deployment)

Core Concepts: OOP, Data Structures & Algorithms (Java)

PROJECTS

RepoMentor — AI Project Mentor | *React, Node.js, MongoDB, Gemini AI*

[Live Demo](#) | [GitHub](#)

- Built a full-stack AI platform that takes a public GitHub repository URL and analyzes its structure, tech stack, architecture, project flow and key source files to generate an interview-ready project explanation.
- Integrated the GitHub API to fetch repository metadata, files and source code, and Google Gemini AI to generate a one-minute project pitch, project-specific interview questions and follow-up questions.
- Developed an AI mock interview that evaluates answers with a score, feedback, a better sample answer and a follow-up question, plus a context-aware AI assistant that answers questions about the analyzed project.
- Added a speaking mode with speech-to-text, microphone timer, live listening indicator, editable transcript and mic error handling for voice-based interview practice.

Zerodha Clone | *React.js (Frontend)*

[Live Demo](#)

- Built a responsive React frontend replicating the Zerodha trading platform — dashboard, watchlist, orders and holdings screens.
- Consumed REST APIs to render live stock and portfolio data on the client.
- Also built the underlying Node.js/Express/MongoDB backend for the app end-to-end.

MangalShringar — E-commerce Website | *React.js (Frontend)*

[Live Demo](#)

- Built product listing, cart and checkout flow with React.js, focused on a clean, mobile-responsive UI.
- Integrated the frontend with REST APIs for product, cart and order data.
- Also implemented the backend (Node.js, Express.js, MongoDB) for product, cart and order management.

CERTIFICATIONS

- ReactJS for Beginners — Certificate (Aug 2026)

EDUCATION

Meerut Institute of Engineering and Technology — B.Tech, Computer Science & Engineering, Expected 2027

Senior Secondary (12th), UP Board — 72% | Secondary (10th), UP Board — 75%

ADDITIONAL INFORMATION

- Actively practicing Data Structures & Algorithms in Java for technical interviews and proctored assessments.
- Strongest in building UI with React; comfortable reading/extending backend code when needed.
- Quick learner, honest about skill gaps, and open to picking up new tools on the job.
- Open to relocation (Dehradun / on-site roles).
